

BORNADDECOR

Wallcovering Summer Collection

A vintage lover sees the beauty beyond that which is frayed and worn. The beauty lies in the patina, which whispers stories of days long past. With a bit of love and paint, a display case and a crescent table can get a new life and a worthy place in your home. Fine candlesticks on a tray coupled with a meadow flower in a vase and a beautiful book can form a lovely still life to rest your eyes on. Vintage style has a soft design idiom where French romanticism meets rural rustics. The color scale goes from white, beige, gray and brown with accents of light pastels. This home is yearning for the smell of autumn and wax candles, as much as for the spring, lilies of the valley and the sound of lace curtains fluttering in the wind.
